

REMARKS

The Applicant respectfully requests entry of the above amendment.

Applicant gratefully acknowledges the allowance of all the claims.

In response to the requirement that the abstract does not commence on a separate sheet, applicant traverses the requirement because under PCT Article 27 section 1, "No national law shall require compliance with requirements relating to the form or contents of the international application different from or additional to those which are provided for in this Treaty and the Regulations".

However, a new abstract is included above for examiner's convenience.

In response to the examiner's pointing out the error in the description, that drawing 32D is not described in the Description, the Description is amended above.

The Commissioner is hereby authorized to credit any overpayment or charge any fee (except the issue fee) including fees for any required extension of time, to Account No. 14-1270.

Respectfully submitted,
